

Superlight VT1 9m

The VT-1 is very quiet and ideally suited for use at outdoor events, yet burly enough to stand up to the harshness of modern construction sites. The transportation of the VT-1 is cost effective – its unique design means that a transport firm can deliver up to ten sets on one standard 12m vehicle.

Suitable for these sectors

Events

Roadworks

Construction Sites

Rental

Features at a glance

Floodlights

Metal halide
